Optimise operations and security with **Transline's AI Surveillance**

With our AI-powered video analytics platform, turn CCTV systems into intelligent monitoring and decision tools.

- Fast to use Dashboard
- GDPR Compliant
- Quick Installation

transline technologies

Transline Technologies

enables organisations to use real-time insights to streamline operations, improve efficiency, and unlock smarter business performance.

- **Footfall & Movement Tracking** — Understand live traffic and movement patterns to optimise layouts and workflows for enhanced engagement and efficiency.
- **Personnel & Visitor Identification** — Get AI-driven demographic and behavioral insights to understand your audiences and tailor experiences to improve satisfaction.
- **Ops Monitoring** — Monitor daily operations in real time and get opening and closing updates to enhance staff accountability and compliance.
- **Staff Attendance** — Get insights into staff attendance and easily monitor workforce performance for better productivity.
- **Proactive Security & Safety Alerts** — From camera tampering and after-hours intrusions to employee absences, receive instant alerts to take immediate action.
- **Process & Compliance Tracking** — Monitor visitor-to-customer or process-to-output transitions in real time to boost sales and operational efficiency.

Organisations risk up to

30%

in lost revenue due to blind spots in store insights.

Lack of AI analytics from CCTV footage leads to security gaps and operational inefficiencies

Understand Your Environment and Operations Better with **AI-Based Real-Time Analytics.**

All-in-One Smart Dashboard.

With Transline Technologies, our customers have seen:

93% accurate footfall count

25% Eduction in operational costs

90% increase in SOP adherence
